

## Bluebells

*Sophistication and liveliness!*  
*In the language of flowers, the*  
*Campanula is considered the symbol*  
*of hope and perseverance, a meaning*  
*due to the fact that it manages to*  
*grow in places where other*  
*plants would struggle to grow.*

*Its delicate bell-shaped and*  
*sometimes star-shaped flowers are*  
*usually blue or purple, but can also*  
*be white, pink, red*  
*and yellow.*

*They are characterized by a long  
flowering period from May-June to  
October.*

*Being a plant that secretes a lot of  
nectar, its flowers attract bees and  
many pollinating insects.*

*It adapts to flowerbeds, vases  
and gardens, adapting easily to  
many other plants and making the  
compositions lively and elegant*
