

# The Color Salmon

Salmon is a very versatile color, suitable for both classic and modern outfits, on the other hand, it is a color that adapts very well to all skin tones.

It is one of the most loved shades by women all over the world, very fresh, cheerful and feminine that looks great in casual clothing and accessories for almost any event..

It is often used on

*special occasions with a romantic  
touch,*

*in celebrations where the feeling of  
love is the protagonist, bridesmaids  
usually dress or wear salmon-  
colored accessories.*

*This color is the result of mixing  
multiple colors, so it can have  
different characteristics.*

*Essentially, the two main tones  
that make up this color are pink  
and orange.*

*Adding more white creates a  
salmon color*

*of course it can  
signify more purity and innocence,  
while more orange can create a  
pastel salmon color that appeals to  
more feminine qualities.*

*Salmon is the symbol of parental  
love, sacrifice, fertility and  
abundance.*

*The most important meanings are:  
motherhood, sincere love. love  
without the sexual part.*

*Its name naturally derives from  
the pink color of the fish of the  
same name.*
